CORNWELL QUALITY TOOLS

"VICTOR" BOLT CLIPPERS

**SWIVEL HEAD
TYPE**

**RIGID
TYPE**

Available in either type and with a variety of cutter-heads. The swivel head tool (left) is the modern bolt clipper. It is flexible and capable of cutting in the most inaccessible places.

The following tables illustrate and list the different types of tools in which the Victor line is made. It is important to select the type most suited to your work.

CENTER CUT

Clipper cut tools are for close cutting such as clipping bolts. Center cut tools are for all ordinary cutting where close cutting is not necessary.

CLIPPER CUT

BOLT CLIPPERS		No.	No.	No.	No.
Clipper Cut—Center Cut		0	1	2	3
LIST	{ Rigid Type	\$5.50	\$7.00	\$ 8.75	\$11.25

LIST PAIRS of JAWS (*Same Jaws used for either type)		*3.20	*4.10	*5.10	6.30	4.80	7.70

CORNWELL QUALITY TOOLS

"VICTOR" END & ANGULAR CUTTERS

End Cutter

In some types of work such as cutting overhead, on a wall surface or at floor level, the end or angular tools are suitable. Available in either swivel or rigid tools as listed below.

Angular Cutter

BOLT CLIPPERS End Cut—Angular Cut		END		ANGULAR (Diagonal)	
		No. 24 E	No. 36 E	No. 24 A	No. 36 A
LIST TOOL	{ Rigid Type	\$ 8.25	\$13.50	\$ 8.25	\$13.50
	{ Swivel Type	10.75	10.75
APPROXIMATE LENGTH of TOOL	{ Rigid Type	24"	36"	24"	36"
